AGREEMENT

This ManagedIT Agreement ("Agreement") is made and entered into as of the Plan Proposal Effective Date "Effective Date", between DivergeIT, Inc. ("DivergeIT") and customer ("Customer"). Under this agreement, DivergeIT will provide the Customer with services as defined in this agreement and the Attachments.

TERM

This Agreement will remain in effect for the Term Selection, found in the term options of the Proposal unless terminated or canceled as provided in this Agreement. Thereafter, the Agreement shall automatically renew for an additional term and on every anniversary of the additional term unless either party gives written notice of its intent not to renew at least thirty (30) days prior to the renewal date or the agreement is a Trial agreement.

"Trial Terms" (based on the Term Selection in the Proposal) automatically renew for an additional term every ninety (90) days unless either party gives written notice of its intent not to renew at least ninety (90) days before the non-renewal. Upon expiration of the 90 day notice period, the Trial agreement will be transitioned to an annual agreement on the anniversary of the start date.

WARNING: Customer understands and acknowledges that if they do not renew and Customer has not made timely arrangements to transition off on the last day of this Agreement that there is a strong likelihood that Customer will suffer an interruption of service and use of their computer and/or server; as such, Customer waives any rights of remedy or cause of action against DivergeIT arising therefrom. DivergeIT will not provide such service or support on the day after the Agreement expires.

TERMINATION AND CANCELLATION

This Agreement and any work assignment in progress may be terminated by Customer at any time, upon thirty (30) days prior written notice to DivergeIT; provided however, in the event of any such termination, Customer shall pay to DivergeIT: (a) the fees for all Services outside the scope of the Agreement actually rendered up to and through the effective date of termination (the "Termination Date"), and (b) the remainder of its contract for the Monthly Services. All of these sums shall become immediately due and payable on the Termination Date. The "Termination Date" includes the thirty (30) days after written notice is given by Customer to DivergeIT, meaning that fees for Services will include the thirty (30) day notice period.

AUTHORIZED INDIVIDUALS

DivergeIT will select the most qualified engineer to perform the services under this Agreement. Customer shall have the right to reasonably reject or request a change of the DivergeIT engineer selected to perform the services under this Agreement.

PARKING

If parking is not validated, it will be billed directly to Customer without mark-up.

EXPENSES

Customer shall be responsible for all out-of-pocket expenses without mark-up incurred by DivergeIT for the benefit of Customer (i.e. parking, tolls, airline flights, equipment for use by the customer or other out of pocket expenses pre-approved by Customer).

PAYMENT OF CHARGES

Customer shall be initially invoiced for the First Month of the Monthly Contract Services and a Security Deposit. The Security Deposit shall be the equivalent to one month of the Monthly Contract Services and may be increased or decreased as needed to match the monthly rate for Monthly Contract Services. If, ninety (90) days after completion of the term of this Agreement, there are no outstanding invoices owed by Customer to Company, the Security Deposit shall be returned to Customer. If there remains a balance due to DivergeIT ninety (90) days after the termination of this Agreement, Company may apply the Security Deposit toward payment of the balance due. Monthly Contract Services will be invoiced in advance on the first of each month with payment due upon receipt. Services outside the scope of the Agreement will be billed at the end of the month and are due upon receipt. If Customer requires and approves additional services or programs from DivergeIT's Technology Solutions such additional services shall be added to Customer's Monthly Contract Services. Examples of the schedule of fees for services that are outside the scope of this Agreement are listed within this Agreement.

Customer shall be exempt from the initial Security Deposit if it enrolls in DivergeIT's auto-pay, which will automatically process payment for the Monthly Contract Services. Any additional services outside the scope of Customer's Monthly Contract Services shall be due on the date of the invoice. Any outstanding balance beyond thirty (30) days shall be automatically paid using the Customer's payment method on file with the Customer.

MONTHLY FEE

The monthly fee is as stated under the selected Term Selection and as indicated in Payment Options. The monthly fee pursuant to this Agreement is premised upon many contributing factors including but not limited to total employees supported, total devices supported and total hours of support. As these variables increase in size there will be a commensurate increase in time, materials, and labor and therefore an increase in the fee will become necessary. Unless Customer chooses the multiyear term option with DivergeIT, which includes a rate lock, the Agreement will be reviewed annually and is subject to a 5% annual increase in monthly support services costs depending on the aforementioned contributing factors. Unless otherwise identified or directed by Customer, DivergeIT shall submit all invoices to Customer at the address noted in the introductory paragraph of this Agreement.

DivergeIT shall not be liable for any indirect, special, or consequential damages arising from the damage to Customer's systems or equipment, as noted above or a breach of this Agreement.
